CERTIFICATIONS

Strategic Development of AI for Businesses

OEB Cyprus · 03/2024

18-hour training on AI-driven business strategies and implementations.

PROFILE

Senior software engineer with over five years of professional experience across fintech, Forex trading platforms, and modern SaaS products. Strong command of TypeScript, React, and Supabase, alongside Python, Node.js, ColdFusion, and AWS. Outside of full-time work, I design and ship production web and mobile applications end-to-end — from database schema and authentication through UI, store releases, and deployment. Focused on clean architecture, performance, and reliable software users actually enjoy.

EXPERIENCE

Senior Software Engineer

Netmar LTD

05/2026 – present · Limassol, Cyprus

Promoted to a senior role with broader ownership of the company's Forex trading platforms. Drive architectural decisions, performance optimisation, real-time data infrastructure, and end-to-end delivery of features across multiple Forex brands, while continuing to ship full-stack work across the trading stack.

Full Stack Developer

Netmar LTD

04/2025 – 05/2026 · Limassol, Cyprus

Developed and maintained frontend interfaces and backend systems for Forex trading platforms, ensuring high performance, scalability, and security. Collaborated with UI/UX, product, and QA to deliver responsive features tailored to Forex clients. Integrated third-party APIs, optimised database queries, and implemented real-time data handling across multiple Forex brands.

Fintech Engineer

DynamicWorks

08/2023 – 02/2025 · Nicosia, Cyprus

Led the integration of new technologies into existing fintech products, ensuring high scalability and security. Developed and optimised backend solutions while collaborating with cross-functional teams to enhance financial systems, improving user experience and automation.

Software Developer

DynamicWorks

06/2022 – 08/2023 · Nicosia, Cyprus

Designed and implemented third-party API integrations, streamlining financial transactions across multiple platforms. Developed web applications using ColdFusion, Bootstrap, and JavaScript, improving functionality and security.

Junior Software Developer

DynamicWorks

06/2021 – 06/2022 · Nicosia, Cyprus

Developed fintech applications using ColdFusion and jQuery, contributing to features that improved the financial functionality of Syntellicore.

PERSONAL PROJECTS

Padel Club League

End-to-end platform for padel clubs to create and run leagues, manage matches, track standings, and handle payments. Web admin for clubs paired with a companion mobile app for players.

padelclubleague.com · App Store · Google Play coming soon

React · TypeScript · Tailwind CSS · shadcn/ui · Supabase (Auth, Postgres, RLS, Storage) · TanStack Query · React Native · Expo

Habit Challenger

Cross-platform habit-tracking mobile app with streaks, reminders, and challenges to help users build and stick to daily routines. Shipped to both iOS and Android.

App Store · Google Play

React Native · Expo · TypeScript · Supabase (Auth, Postgres, RLS) · Local notifications

Moiva Jewellery

Custom-built e-commerce store for a modern jewellery brand. Full product catalogue with rings, earrings, necklaces, bracelets, and anklets, plus cart and checkout flow — built from scratch, no off-the-shelf platform.

moivajewellery.com

React · TypeScript · Vite · Tailwind CSS · shadcn/ui · Supabase · TanStack Query · React Hook Form + Zod

Maya's Flavours

Bilingual (Greek / English) ordering and delivery site for a Cyprus-based artisan dessert brand specialising in French fruit desserts, with island-wide delivery.

mayasflavours.com
